CAPABILITIES STATEMENT

SBA WOSB and 8(a) Sole Source

Under FAR 19.1506, as a WOSB, ChemTrack has sole source capability to \$4.5 million within any NAICS code in which we perform. We also possess sole source capability up to \$4 million for individual 8(a) awards.

Sole source contracting streamlines the acquisition process and allows the government to accelerate the award process, saving both time and money by eliminating lengthy competitive evaluations and the chance of a protest. ChemTrack provides the government with a partner in transparency and excellence. Our process effectively guarantees the government the ability to negotiate a fair and reasonable price, with none of the uncertainties associated with the competitive process.

ChemTrack Alaska is an experienced government contractor specializing in environmental and construction work.
